(edited by DO NOT NEED TO KNOW) View source Share Welcome to the Community Portal! The local Madness Combat Wiki Community HQ! Enjoy your stay! Back to Community Portal Resources This page is for Madness Combat Resources, such as sprites for weapons, characters, etc... FLA file format. Most of these sprites come from Madness Combat Resources. Madness Combat 1, MC2: Redeemer and MC3: Avenger Resources for Madness Combat 1-3. MC4: Apotheosis, MC5: Depredation and MC6: Antipathy Resources for Madness Combat 4, 5 and 6. MC5.5, MC6.5 and MC7.5 Resources for .5 episodes. MC7: Consternation, MC8: Inundation, MC9: Aggregation and MC10: Abrogation Resources for Madness Combat 7 and Madness Combat 8-10. MC9: Aggregation (Flash 8) MC9: Aggregation (Flash MX) events resources for the events. Madness Interactive Resources at Madness Interactive. Madness: Project Nexus Resources for M:PN. Other resources for Krinkels' other animations, such as the shorts. Community content is available under CC-BY-SA unless otherwise stated. I've seen quite a few people have made fananimations of the original madness series, but where do they get possessions from? I know some of them draw most of it themselves, but it seems. There's a booze sheet floating around out there. #ShabtiakGenocide2263 #GloryToTheCollective. Hope you like Sprites: Microflashmedia: http. Madness Combat - Weapons Sprites (Total: 61) and a game! 2012-12-01 19:48:55 by Updated 2013-08-08 13:31:38 Thank you for everyone who helped me and for 30+ Fans, now I think I can go much more far than before. IMPORTANT: I'm working on a game called 'Madness Guy Creator', and it's progressing fast like heaven, but even if I need to wait, it will be posted in Madness Day 13. If you want to see Demo, just click in the link above: EDIT: Well, Krinkels declined my invitation to be a Beta Tester for ma games, but I think he himself has not seen it: P (this is called auto-cancel, lol). I would be very happy if Krinkels or a Madness Fan wore these weapons in Madness Movies or Games. Download Link (4shared): PS: If you want me to make a specific weapon for you, just PM me. PPS: I'm looking for rare, collecting, prototype, unknown and forgotten weapons on momment, if you know or found one, PM me with the link to the gun image please. Including character parts: A.T.P. 2007-10-07 12:16:04 Hello, Newgrounders! I've found some madness battle sprites! My last Madness Combat Sprites Topic died out, and I couldn't find it, so I decided to make a new one. While I've been browsing the Newgrounds Forum, I've noticed a lot of people looking for Madness Combat Many suggested using to search for Sprites, but it hasn't really helped. So I did some deep digging on the Internet, and finally after many hours I found a link to FileFront, which has a user named Tazers hosting Madness Combat Sprites! Finally I found Madness Combat Sprites! To find out more and download. Please let others know that I have found Madness Combat Sprites, as lots of people seem to want them! Also, don't forget to leave a comment on my News entry! Reply to 2007-10-07 13:52:24 On 10/7/07 13:48, simple-but-sandy wrote: If you can't draw your basic madness guy,

then I suggest you give up flash immediately. They are like the easiest after sticks. I know, but as I said to the other person, I just wanted to share this find. I know they're simple, but many others want Madness Sprites. I've designed my own Madness Style before, and it's easy to do, I'll admit. I'm not going to give up Flash just because I use Madness Sprites, others use them too. Reply to 2007-10-08 15:34:46 on 10/7/07 13:50, mrazerty wrote: On 10/7/07 12:32, Nez-Man wrote: At 10/7/07 12:16, Reyals wrote: I feel bad for anyone who is not good enough to draw their own Madness sprites. They're not exactly complicated. True, they are easy to draw / make. But I just thought that I would share this to see so many people looking for Madness Combat Sprites.Hmm.in the first crazy movies, like 1 and 2, they are very simple. But further in the series, they become waaay more complicated. Yes I agree that sprites in madness match 1-4 is quite simple, but from deprecation and beyond they get very complicated. Christmas Lights &amp; Looting Posted by ShootDaCheese - 11 days ago Merry Christmas Everyone! Merry Christmas to all of you hooligans and neighborhood hoodlums, I bring good messages on 2 sprite sheets this festive holiday! One is a sheet containing the janitor from Viscera Cleanup Detail, a game where you clean up gore and viscera in the wake of many events across the corporate-owned galaxy. The other is Pirates, Privateers, playing character and secondary (actually the main) antagonist of Far Cry 3, a game in which you and your friends are trapped on an island in the middle of nowhere with bands of pirates and mercs roaming around chasing you down. I hope you guys and lassies put these to good use: Viscera Cleanup Detail SpritesFar Cry 3 SpritesEDIT: FUCK I forgot, thank you a lot of DUALity for the inspiration to work with these Far Cry 3 sprites, man :see on his wide Madness.fla: Madness.FLAOther NewsNoy really other than my birthday coming up, on the 14th next month. I'm going to be 19 years old and closer once more to being thrown out of my father's house, yippie. Anyway merry Christmas and enjoy the gifts I've given you all :) Tags: Custom Gun Sprites Posted by ShootDaCheese – November 1, 2020 So I thought Halloween/Post-Halloween would be a good time to post an announcement on this project I'm working on. have laid out weapons. Weapons. made since I got Flash. I've been thinking for a while about making a file filled to bytes with firearms of different types like a maybe final gun sprite file, and that's what I've mostly been working on for a while now. So far I have 772 sprites and an unknown amount of weapons on the file, and I'm still growing it: in my Guns to do in the animator folder I have 341 that can definitely grow from now. For those who favor dissenter style, sorry, but the focus style for these guns is something like the classic Madness Combat style, which was with Custom Gun Sprites 5 I released on Madness Day 2020.I can do this in more detail to describe some special characteristics about any of these guns since some of them are not normal, a gun for example is an open bolt gun! In any case, I hope you are happy about this, as this is something I have mentioned that I wanted to do for a long time. A weapons package to surpass Elijah :vWith Love, Cheese Tags: Madness Day 2020, I mean as what else would this post be about :v Written by ShootDaCheese – September 22, 2020 Another year, another day of madness. It has most likely been said before, but oh well. ANOTHER YEAR! ANOTHER COMMUNITY HAS SURVIVED! And a helluva year to survive too with the world pushing a thumbs up its metaphorical ass. We did it, boys and girls, were still here and still celebrated Madness. This year unfortunately I do not have a big art project or long animation TO celebrate madness with (not as some of mine would be good &gt;-&gt;) BUT FEAR NOT! I've spent hours working on this second project, one I hoped to be the end of this series of files, but obviously not. Custom Gun Sprites 5, with 125 guns and 332 sprites! I doubt that these will be in use for years to come, but who knows, maybe going back to something I think is like the old Madness style can help:shrug:. Anyway here's the file: ShootDaCheese's Custom Gun Sprites 5 (I've just now learned how to create the URL text instead of just the URL, nice.) Also, you'll think so, I'm a little older than Madness, that means I've practically grown up with madness:vvvvvIn other news I'm looking at going into military service, especially into the marine branch of the U.S. military like my father. I haven't gone to a recruiter yet, but it's one of the upcoming plans. Meanwhile sick still be here watching toons, playing games with friends, doing sprites in flash (8), coming up with ideas and not working with them because of laziness, etc. Have a good madness day 2020. (I mean, hopefully it's a good day...) (Also, my part for the NG limit is the one above the bottom left :v) Tags: 200 Melee weapons Posted by ShootDaCheese – May 9, 2020 Some of you already knew because of me putting forward progress pictures in disagreement, but for those of you who do not know: I've been working on a file filled with 200 melee weapons, ranging from blunt weapons, bladed weapons, chopping/bashing weapons and even some animated. I've started 2 weeks ago and has added at least 1 every day and at most 20. I give them all of you, and I hope you enjoy the time and job I put into these as always. Note, I hope these can be enough for both brush style and line style. EDIT: Because someone hasn't credited me here and there, Id likes to repeat a post from July 2019. You can use my boozes, I'm not asking for anything other than that you credit me for them. That's the least you can do. If changes are made to sprites I put out, same as above, throw my name somewhere and we should be good. Please, us sprite makers put a lot of time into our work, or at least I do :vFLA: Tags: Mandatory 300 Followers Post Posted by ShootDaCheese – April 7, 2020 I've bought 300 Newgrounds followers, neat. Thank you everyone who has followed me :)I've been working on a test that spirals into a solo. Here are some pictures from that along with some other things. Tags: Dissenter-esque Guns Posted by ShootDaCheese – March 18, 2020 I've been working on drawing my own Dissenter/Rebuilt.FLA weapons, and here they are, they ive made open to the public. Works for anything that can open Flash 8 files. FLA: Tags: dissenter file fla gun weapons krinkels madness shootdacheese Old Art Written by ShootDaCheese – January 29, 2020 Do you ever go through your old art and think: UGH this is terrible! Orugh fuck! Why did I make Yeelon so shiny? Oroh hi I've improved :)ALSO I'm going through an artblock so more cartoon sites are coming soon...! Tags: 2016 art elektrokinesis old-art Saddening Situation Written by ShootDaCheese - November 4th, 2019 I'm lazy is what y dad told me and I believe him. I find myself again on the precipice of failure or prosperity, and the hope of the latter seems distant. I've once again lost my electronics because of grades at school, from not turning on work so as not to flatten out doing it. I was told I'll get them back after I get my grades back to pass (the lowest is 60), but with a quarter charging at school I don't know if my class going back to 100 for this quarter of the year will allow me my electronics back. I've tried to stay in touch with my iPad when my dad's not at home or when I'm at school, but it's a dangerous game I play. I won't be able to do sprites anytime soon from what I can see, but I'll keep working on y cartoon (page 6 is in sharpie atm). I'm sorry for my absence, but I'm going to try to get my grades back up. Auf weidersehenShootDaCheese Tags: absence electronics grades school MD2019 Post-Bandits Posted by ShootDaCheese – September 24th, 2019 I'm finished sprites of normal and by Bandits from Madness: Project Nexus 2, and is releasing them for people to use. I want to update it in with Bandit Fanatics, GOL3Ms and MAG, but I want to get this out the door now that my Madness Day contribution, contributions, it is 2 days after the written day. Fla: plzEDIT: Both links led to the same thing, just fixed it now Tags: bandits idiots madness mpn2 pn2 shootdacheese MD2019 Pre-Idiots Written by ShootDaCheese - September 22nd, 2019 Happy MD19, leave it dead galore to grunts and agents of AAHW. I'm working on something, expect it soon. Tags: Tags:
